Minor civil divisions.—The primary divisions of the counties of Mississippi are termed "beats." These beats include the secondary divisions which are incorporated as cities, towns, and villages. Table 4 shows the population of each county by beats, cities, towns, and villages for the last three censuses. The population of the cities, towns, and villages is shown in *italics* under the population of the beats in which they are located. Several of the cities, towns, and villages comprise two or more beats or parts of beats. Where a city or other incorporated place occupies parts of two beats, the total population of the place is given in connection with the presentation for the first beat.

Changes in boundaries of beats and incorporated places between 1920 and 1930 are indicated by footnotes on Table 4; for changes between 1910 and 1920 reference may be made to the Reports of the Fourteenth Census (1920), Volume I, Table 53.
