CENTER OF THE WORLD'S
RICHEST MINING SECTION

Mr. Harry Locke,
652 S. Olive St.,
Los Angeles, Calif.

STOCK-RAISING

ONE OF PIMA COUNTY'S
GREATEST INDUSTRIES

Dear Mr. Locke:-

Thanks very much for your timely letter of December 6th, regarding the Auto Club of America. I have before me the December 7th issue of the Ajo Copper News from which I will quote:

AGRICULTURE

25,000 ACRES OF LAND
UNDER CULTIVATION
WITHIN TWENTY MILES OF
TUCSON

"W. E. Macarten and P. M. Dalley and Wife of the American Automobile Club, arrived in Yuma Sunday in the "Katy Flyer", the club's fast and famous high powered machine, their mission being the making of road maps of the Old Spanish Trails highway, which follows the borderland of the United States from San Diego to the Gulf of Mexico.

CLIMATE

TUCSON'S FAMOUS CLIMATE
HEALTHFUL, DRY AND
PRACTICALLY WITHOUT
HUMIDITY. CLOSELY AP-
PROACHES THE IDEAL....

The map makers will make maps of the entire road, and expect to be engaged in this work for more than a month. They are enthusiastic in their praise of this route for automobile travel, declaring that it is the only transcontinental automobile highway that is open to travel all the year round, and that it enjoys beautiful weather at a time when the northern routes are not to be thought of. The party left for Phoenix yesterday-Yuma Sun. "

RAILROADS

MAIN LINE SOUTHERN
PACIFIC R. R. TERMINUS
SOUTHERN PACIFIC OF
MEXICO, WESTERN TER-
MINUS EL PASO & SOUTH-
WESTERN R. R. - ROCK ISLAND

They have not as yet put in their appearance in Tucson, but we are very glad to receive this warning, and will appreciate any further information you may give us regarding them.

Yours very truly,

John F. Myers
Secretary.
