June 7, 1917

Mr. Stewart A. LeBlanc,
Mobile, Ala.

Dear Sir:--

I thank you for the copy of Mr. Cocke's speech but am returning it because Mrs. Phillips sent me another copy from Tallahassee and you say this is the only one you have so I'll play safe and send it back while the opportunity is ripe.

It does seem a pity that we cannot get road reports on that territory west of the River --the part you are especially interested in.

We have written about a dozen letters in the attempt and had ONE reply--from the Secretary of the Rotary Club in Pensacola, who is a personal friend of mine and just wrote a little "thank you" letter and sent in a subscription.

We dont want West Florida people to think we dont appreciate the fact that they, too, are interested in road work and yet they are liable to think so and through no fault of ours. What do you do in such cases?

Why not put us on your mail list for your weekly bulletin. We would be glad to use some of it and give you proper credit.

Very truly yours,

P. A. Arnold

Editor.
