

May 22nd, 1917.

Mr. Harry Locke,
652 South Olive Street,
Los Angeles, California.

Dear Harry:

Referring to your letter on the foot of
my letter of the 14th.

Mr. Lloyd sent 49 guides. I presume this
is close enough, or do you wish me to go back and
ask him for the other copy.

Proctor was not at Tallahassee when I was
there, as he had gone to south Florida. Mrs. Phillips
suggests that if Proctor would turn over to the Boosters
Club the guides he has left, and send check for the
balance, she might be able to either sell the guides
for you, or persuade the Boosters Club to buy them
from you. Please advise.

The Convention was a success, in every way
except attendance. Both houses of the Florida Legis-
lature unanimously passed memorial to the Government
asking them to complete the Old Spanish Trail as a
Military High-way. I am not counting on the Government
completing the High-way, although there may be some
thing in it, as the A.A.A. advise that at the request
of the Government, they are preparing plans for a
marginal high-way along the Pacific Coast, along the
Atlantic Coast and along the Gulf.

More later.

Yours truly,
Secretary.
