San Antonio, Texas.

April 29, 1930.

Mrs. Henry Drought
1215 N. St. Marys Street,
San Antonio, Texas.

My dear Mrs. Drought:

I planned to be present this evening and do my part to show honor and recognition to Mr. Herral Ayres at the Decoration Ceremonies but engagements have arisen which will hold me until late tonight. Please accept my regrets, and I assure you that I am sincerely sorry that I cannot attend.

Mr. Ayres has done a great work for San Antonio and South Texas. To open a highway across the nation and through this section means fixing forever San Antonio's position for automobile travel. I have watched this work for ten years and my position as a Legislator helps me to understand the difficulty of getting problems solved and progress achieved. Mr. Ayres has had to battle with difficulties that have taken the heart out of him again and again, then he has gone at them from another angle and still other angles until he won his objective.

The honor that now comes from the Spanish Crown is well earned. I know of no tribute I could pay to any one that would give me more pleasure than to have been present tonight while this great honor is being bestowed.

I pay my highest respects to you also for what you have done to make this reception and ceremony a notable event.

Most Sincerely Yours,

W. A. Williamson.

WAW-d
