When the sun shines?
I came by rail, but had
a good chance to see
the roads, in places.
The sand is awful, and
the water seems to stand
on it, making slush. I
had no idea sand could
be so wet. I guess you
get discouraged about
road improvement.
It is slow business. The
State Road Department is
beginning to do some
work in West Florida.
I leave for home at 9 P.M.
tonight. Will send you
news when I have any.
