EAST BERNARD, TEXAS.

February 10th. 1922.

Dear Mr. Ayers:-

The contractors, Walsh & Burney have just completed our bridge. We have a splendid structure at a cost of about \$65.00 per running foot. The price of piling was \$2.80 per foot and concrete \$20.50 per cubic yard and steel .06 per pound.

We have no photo of the bridge at present but will have one in about a week or ten days and will be glad to send you one at that time.

Very truly yours,
