

Houston back of us, such as W. C. Munn and J. F. Culliman, and all of the hotel men and a number of my automobile dealer friends. Also have Mrs. G. A. Young, who has been a leader among the club women of the state for 20 years. I am herewith enclosing you copy of song that she has written for the Valley at my request. I want to publish this in the next bulletin, and by the way, you had better take an afternoon off and prepare the next bulletin and send it over and let us see if we can't get it out on time.

Am herewith enclosing you some newspaper clippings. One of them was received in a hotel envelope from McAllen. It looks like society doings to me and I guess you will know what it is.

Very truly yours,

Sam
