next Sunday and will continue to give us a page each Sunday with pictures until the convention.

I succeeded in getting Capt. Fauntleroy to accept the Border Highway from El Peso to Sanderson and he will recommend its acceptance to Losh and McCrory, so I have gotten that in good shape, and was able to cover it without the additional expense of the trip out there. We have it all accepted now except from Sanderson to Laredo and I am positive it will be accepted just as soon as I can get time to make the trip with Fauntleroy, Losh, McCrory and Col. Jadwin.

I wrote you a short letter from El Pase but didn't get in any of these details, and I haven't time to give you a complete report, but will be able to give you the balance of it in the next two or three days.。

I am sending a copy of this letter to Mobile figuring that you are just as liable to be in Mobile as you are to be in Washington.

The Hotel found your laundry the was lost and we will send it to Mobile.

Mra Shreve has been doing a mighty good business on his El Pase work. The marking was worse than you and I thoughtit was. I gave him instructions to double up on the marking, but I over-took hin at El Pasco and told him to ignore my first instructions and make it the best marked highway in Texas. I want it marked from El Pasco so San Antonio like the K. T. is marked thru Sian Antonio.

I am enclosing you a few of the letterheads to Washington and sending you a package to Mobile.

I think your work in connection with the Dixie Highway was about like carr Brownsville project, only your bunch dian ${ }^{\circ} t$ pull out and leave town, but you seem to have gotten everything you. wanted and then some.

We still have lots of rain here,
Yours very truly,

$\mathrm{DEC}: \mathrm{AH}$
