THRU THE HILLS San Antonio to El Paso-582 miles

Road Conditions

This section is usually driven without hardship in two and three days. Well graded, well maintained gravel prevails; 80 ml, are paved, out from San Antonio and out from El Paso. The roadbed is broad, grades and curves are comfortable. At Roosevelt for 12 ml, the Liano River is forded a dozen times on under-water concrete bridges; between the fords the old trail is maintained. A new road is to be built. This river trail with its spring water and shady groves is enjoyed by most people. Dry weather prevails in Most 2023.

Description of Country

The Old Spanish Trail westward from San Antonio cuts directly thru the Trexus IIIII Country to El Paso. The milenxe directly thru the Trexus IIII Country to El Paso. The milenxe that have made the IIII Country noted a spreading waters that have made the IIII Country noted as a carried and goat ranches and popular for recreation. The clevation and the dry sunshine make the climate enjoyable and allow all-year outdoor sports and pleasures. Fourteen clear-water rivers are in West Texas. Bexar, Kendall, Kerr and Kimble
