you could not have been with us at our meeting at Pass Christian. It was delightful and well worth the effort. I hope particularly that you will get in touch with the three New Orleans Ladies, each of whom subscribed in aid of the fund, and seek to get them to be workers for the road which I attempted to visualize for them as giving them the opportunity, when completed, to drive over to New Orleans for lunch or a matinee and comfortably to return to the Coast in a day.

If New Orleans gets behind it, I am sure that we will realize our dream much quicker than we think.

With regards and best wishes, I am

Yours truly,
