

JOHN C. NICHOLSON, PRESIDENT
NEWTON, KANSAS

DR. F. L. AYRES, VICE PRESIDENT
NEWTON, KAN.

EDWARD B. TOLSON
WASHINGTON, D. C.

MERIDIAN HIGHWAY

HIGH WHEEL ROAD ACROSS UNITED STATES

NEWTON, KANSAS, May 1st, 1934

May 5th, 1934.

Mr. John C. Nicholson,
President, Meridian Highway,
Newton, Kansas.

Dear Mr. Nicholson:

Yours of the 3rd received.

I would think Fred Mally more than any one could handle the Mexican work if it can be handled at all. I do not think the San Antonio Chamber of Commerce could help. Not because they would not be interested, but because they are not organized for such work.

Mexico has mountains and deserts as well as political conditions to contend with, and we here are apt to get wrong ideas as to what is possible down there. Personally, I know just about enough to feel that I could not have very much of an opinion unless an extensive study was made of Mexican conditions on the ground. This makes me think that possibly Mr. Mally would be the best adviser.

Appreciating your letter, I am

Very truly,

H. B. Ayres, ^{ctor.}
OST Managing Director.
