

Pleasant Recognition

While Old Spanish Trail literature is prepared primarily to interest travelers in these Southern Borderlands it is also in demand for teaching physical geography and old history. OST files are heavy with letters from colleges, schools, teachers, students and librarians over the United States.

Unusual care is exercised to correctly state all facts and to give a true picture of conditions.

North Texas State Teachers College

17 August 1925

Mr. Harral B. Ayres
Old Spanish Trail Managing Director
San Antonio, Texas

Dear Mr. Ayres:

I wish to thank you for the Louisiana Travelogs. It may be a surprise to you to know that this material is considered A-1 by geography teachers and teachers who have children anywhere along in the grades. The youngsters look upon this as the real thing. Again thanking you, I am

Yours very truly,

R. L. MARQUIS,

President.

Bell School, Chicago, Sept. 29, 1925

Copy of Texas Travelog received. I find it admirable for teaching 7th Grade History and Geography. My class is unusually large—51. Would this be too many more to ask you to send me?

Very sincerely yours,

(Miss) Florence A. Hale.

Report to Members

Old Spanish Trail

HEADQUARTERS, SAN ANTONIO, TEX.

"The Old Spanish Trail is the basic trunkline of the South and the natural artery thru the Nation's playgrounds from Florida to California. Its identity should be jealously guarded so the people of the United States may always think of the Old Spanish Trail as the highway of the Southern Borderlands and thus be led to find pleasure and profit among us."
