Ve heve over two thousend miles of marked trunklines and tourist routes and in another year will have Iour thousend miles. It is devezoping an irmportance without a. parallel, I believe, among the letionel highwars.

We have alwaye reoognized the sankhead Highwey thru there. onator Benkhead is the Eather oi nationsi hichuags. Sut a poliog of encouraging many hichweys as copresonting bat one route aan soon so detract from the individuality and aistinction of ony of them as to ronder service and administretion almost worbhless. This leads to the thought that this route is whthout any individuality bitt is the plevthing of any promotor who might come along. The individuality of the highway gen be maintained it restrioted to the 012 Spanish Trail and Bankhead.
