

Beaumont, Texas.
October 15, 1919.

TO THE COUNTY JUDGES:

Dear Judge Belknap:-

I wish to get a report on the identifying of the 123 granite monuments placed by Contractor on what is known as the Kings Highway, Camino Real or Old San Antonio Road, extending across the State of Texas from the Sabine River to the Rio Grande River. The Contractor has reported 123 granite monuments erected according to contract and according to the book of surveys made by the States appropriation, and according to the location made by the Surveyor where the monuments were to be erected.

Before the last payment for the monuments is made, I am asking all of the County Judges in their respective Counties to inspect the monuments, as one knowing all of the routes in their Counties, and one who could reach every monument by the shortest route, to report back to me, the number of monuments from County boundary line, going east and west along road where monuments run.

Will you please attend to this and report back if number of markers are placed according to red dot placed on map. The Daughters of the American Revolution in conference assembled will arrange for the dedication of the monuments November 5th.

Very sincerely,

MRS LIPSCOMB NORVELL,
Texas State Regent, D.A.R.

*As there is not money available by the State or
The Daughters of the American Revolution Society
and we are so anxious to finish this work
and dedicate trail to state and let the people
know something of its history and the part it
played in the civilization of the Southwest.*
