MERIDIAN HIGHWAY

HIGH GEAR ROAD ACROSS UNITED STATES

NEWTON, KANSAS, Lay 3rd, 1924

H B Ayers, C S T Manager,

San Antonio, Texas

Dear Friend:

I appreciate yours of the 16th inst. I do not hear from Colp anymore.

I wrote the Chamber of Commerce of San Antonio also others in Texas asking their co-operation and assistance and advice in putting over the "exico Extension of F H but they have not replied.

I wish the San Antonio Chamber of Commerce and other interests directly interested would take hold. I have looked to Fred W Mally,Secretary at "aredo but nothing doing

I wish you would speak to the proper person connected with the Chamber of Commerce and put them right if you can as to my relation to Yr Colp, that I am founder of the K H and am giving it my time free and unsolfishly and that I am only expecting and ask to be to reimbured the money I pay out and that I am anxious to have the Chambers of Commerce to co-operate with me in building up and making of the K H the very best highway possible under the conditions.

I especially wish you might impress upon them that I am willing to do what I can do to put over the "exico Extension but I think they should take the lead and tell me what I can can do to push it along rather than for me to appeal to them or direct to "exico.

If conditions and time are not opportune I am perfectly willing to drop the matter and thus relieve myself of a lot of gratis work.

Do you think the time and financial conditions are opportune to push the extension now?

Lir McRae will co-operate with you and you can count on me whenever I can help.

Sincerely yours resident
