Dear Madam:

Replying to your letter of the 25th instant, you are advised that Oklahoma has no State regulation abolishing or curtailing advertising along highways. We have, however, in this State recently begun a movement for the beautification of our highways through the planting of trees, making of our highways roads of remembrance, and the State Agricultural Department will be able to give you more information concerning this movement.

Thanking you for the folder accompanying the letter in which we are greatly interested, and wishing the very greatest success for your enterprise, we are

Yours very sincerely,

FOR THE ATTORNEY GENERAL.
