My dear Mr. Ayres:-

Upon my return here this morning I found your favor of the 13th, with copy of proposed *resolutions*. I hope you will be able to put it across.

I haven't any definite news to tell you yet as to the action of the State Commission. We sent two of our heavy weights up to Montgomery last week and planked down \$1000 to offer in payment of expenses of an extra highway engineer to be sent down at once. I have not heard yet, having just arrived this morning, whether the engineer is on the job.

Let me hear from you from time to time so I may be able to answer some inquiring friends as to our progress.

Yours very truly

S. H. Peck
