W. G. JONES,
SECRETARY-MANAGER

Page #2

If commission basis be adopted it should be understood that the Association pay all expenses incurred if the manager should be unduly delayed in any city caused by lack of co-operation from the office. His expenses should also be paid when called back to the Home Office.

More careful attention should be paid to the Trail marking at cross roads, with marking through towns kept as straight as possible. The rule should be strictly enforced that no garage, filling station, hotels or stores shall be marked with the Old Spanish Trail signs unless the membership of \$25.00 be paid.

A systematic method of bookkeeping should be installed in the office.

Kindly pardon this letter not reaching you before, but we have really been so busy with this bond election, that I have not had the time before to write you.

With kind regards,

Yours very truly,

R. B. Houston
