July 10th 1932

Mr. H. B. Ayers,
San Antonio Texas.

My Dear Mr. Ayers:

Your letter of July 5th. to hand.
I was agreeably suprised to hear from you and.
thank you for kind remarks. I do my best for all
patients. But very seldom finds one who appzeziates
my honest efforts.

I note from the Rx. you send me that you
are practically going back to your old Rx. The
the one made in 1930 with the prisms were not
greatly changed except for the addition of double
prisms. Prisms gave wonderful results when pro-
perly fitted but are poison otherwise. I trust that
this new prescription will give entire satisfaction.
The Lenses which you want are of the very highest
grade. I can fill this prescription for you in
Ultex which is the kind that you are wearing and in
Ortogen Softlite will be \$13.50. for lenses only.

1879
I Thought that Texas alone had escape the
the depression. But From you letter I see it has
not. We have something more than a depression here
we have been without a bank since November the 25th
If you remember we had three when you were here all
failed. This is ofcourse in addition to the regular
depression.

Should you decide to let me supply you with
your lenses write or wire me I have kept a copy
and am returning you your Prescription. Thanking
you for you kind thought and with highest personal
regards I am.,

Yours Very Truly

L. B. Daron
