

Revised Mileage Table

May 1, 1927

Road and bridge construction totaling \$63,000,000 will be completed this year. Other construction now in progress will bring the total to \$70,000,000 during spring and summer of 1928. So much is completed and maintenance is so good travelers will now find the driving comfortable on 95% of the road. Most of the mileage between towns is now permanently settled. Specially equipped cars of the Automobile Club of Southern California working in cooperation with the Old Spanish Trail, promptly report the new mileage records as construction forces finish new roads and bridges.

Elevations shown at railroad stations; where no railroad, then at the city center. Population according to the Bankers Directory.
