

However, if date is left off there is no reason why the Dallas Morning News could not run Bulletin you receive on Saturday morning, the Sunday a week after it is received, and nobody would know the difference. Can you arrange this?

Harry Locke, I note your remarks about. We have not heard from him for so long we did not even know that he was in El Paso, but we certainly hope he is working his way east. We used Harry's log out of Mobile as far as it went, and found it infinitely more accurate and easy to follow than the Automobile Blue Book was. There is nothing the matter with Harry's work.

A friend of mine is figuring on touring from Mobile to Houston, but he is a little afraid of the Louisiana roads. It has occurred to me that he might make the trip by the way of Shreveport and Dallas. Can you give me any information as to what he will find on this northern route, and whether it is feasible?

Yours truly,

SALeB/MS

SECRETARY.
