Dear Harral,-

I am sending you today's paper with election count incomplete, the returning board having unaccountably adjourned to Monday noon. There is strong suspicion that Dr. Ward was "counted in" again as county commissioner, the only one of the old gang to get back. The new board will be Byrne, Towle (a civil engineer), ^{Ward}Prine and Cleveland. Hagin hardly got a look-in.

The official count will be in a later paper, which I will send you.

Things are getting under way for the port amendment, and I believe that it will easily carry.

I am being given credit for defeating the commission gang. Stallworth was just ⁱⁿ to congratulate me ⁱⁿ having helped to put the old ones out while his organization was putting the new ones in.

Sincerely,

Warren Roberts
