## MERIDIAN HIGHWAY WINNIPEG-MEXICO

## NEWTON, KANSAS

July Joth, 1923

H B Ayres, CST Managing Director, San Antonio, Texas Dear Sir:

The middle of March I began the construction of a business black in Newton by day labor and it has taken all my time exercises that I could spare from my other work and I have neglected the N H and M H correspondence.

To my great surprise the other day I received a letter from Mr Colp which I answered the first communication I have received from him for many months protecting against his in carring debts in name of N H Assn.

Eachaughton and Robretson and Colp have been the whole thing almost in Texas for sometime. Mac Naughton passed away last spring. Each state division elects its own state officers and Colp will not call at state meeting of the Texas Division co continues as Treaident of Texas Division. At the last meeting of the International organization I was elected Fresident Colp ,Vice Fresident and Mac Naughton, Secretary and Treasurer. I called a meeting for July 16th at Salina, Kas to elect new officers but had to call it off as we could not get enough to come. I think I will call a meeting this fall.

I was very glad to get the clippings you sumt me and I fully agree with you in standing for a few trank lines rather following promoters promoting other roads for the pay in it for themselves.

I also approve your suggestion that the Spanish Trail follow the M H to Mexico from San Antonio throug Laredo.

Mr Colp shows the M H passing through Wichits Falls which route we abandoned for the direct route through Terrall Okla many years ago.

If you hear of any of his activities that you think would interest me please let me know. He must not incur dobts in the name of the M H or the M H is blowed up for we are not going to stand personally responsible for his dobts.

With all good wishes for your success I am

Sincerely yours

uno he Nicholson. President M H

Thanks for maps of 0 S T you sent me
