

My dear Stewart:-

H-30-17

The enclosed clipping will interest you. People are getting to boost our route without being requested so to do.

I think if you will re-write it a little and use it as copied from the Lib. Examiner, in the bulletin, it will help some.

Now in the bulletin. May not have the data each week set up in column wide linotype and use two columns of it when you have enough matter. This would help get it into the press everywhere, whether sent to them direct or through our directors etc. The cost would be trifling and the bulletin more liquid and businesslike.

This is a good suggestion - I admit it.

Get those <sup>50</sup> words from Lloyd now.

Yrs.  
Hoy
