Dear Mr. Reed:

Last year you kindly helped us on this compilation of place-names. This list is for popular use in our national publications.

The enclosed is the result of the work so far and several explanations here are apparently questionable.

We appreciated your help. Will it be an intrusion on your time to ask you for additional criticism or suggestion?

In giving credit should we use your name or that of the University of Arizona?

Thanking you, we are

Sincerely,

Harral Ayres,
OST Managing Director.
