

El Quistador

THE CLUBHOUSE

ALL THE comforts and conveniences you enjoy in your present clubs, or in your own home, plus the utmost in enjoyment of all outdoor sports—this is the aim of El 'Quistador.

A COMPLETE and fully equipped hunting and fishing lodge, with launches, boats and canoes, rooms with electric light, and running water—an 18-hole golf course on land ideally suited for the purpose with excellent natural hazards—these are the result of the first two membership groups. But the principal feature for the comfort of members and guests is the club hotel.

THIS building of 150 rooms is planned for every modern improvement, every modern convenience—a spacious lounge, dining rooms, music for dancing and every reasonable provision for the entertainment of members, their families and guests.

THESE plans include both salt and fresh water pools, a gymnasium with locker rooms, etc.

THE furnishings of the hotel are in the best of taste. The Founders' Committee has in mind honest values and solid worth, rather than flash, quiet comfort rather than gaudy appointments.
