Montgomery, Ala.,

April 30, 1917.

Mr. Palmer Pillans, President,  
Old Spanish Trail,  
Mobile, Ala.

Dear Sir:

Recently we organized and incorporated the North & South National Bee Line Highway Association, the Charter fixing the route which is from Nashville to Columbia, Pulaski, Decatur, Cullman, Birmingham, Montgomery, Selma, Mobile, New Orleans. Also a branch from Montgomery to Florida, via Dothan to Tallahassee.

We are getting our printed matter and would like to show that we connect with you at Mobile and Tallahassee, at least that part of it from Mobile, east to Pensacola, Tallahassee and Florida Peninsula.

We are taking the matter up with the Dixie Bee Line Highway which runs on a bee line from Chicago to Nashville, giving the most direct and bee line route from Chicago to the Gulf.

We believe that it will be to our mutual advantage to assist each other in some manner. Would be very much pleased to get your advice on the matter.

Yours truly,

*F. J. Cramton*  
President.

N & S National Bee Line Highway As'n.
